GROUP PROFILE

Established in 1986, LESSO (Stock Code: 02128.HK) is a global leader in home furnishings and building materials. The Group's business portfolio spans plastic piping, building materials and home furnishings, environmental protection, new energy, supply-chain service platforms and others. It offers a wide range of products such as pipes, photovoltaics, plumbing and sanitary ware, integral kitchen materials, integral doors and windows, aluminum formwork and smart scaffolds, water purifiers, water-proofing materials and sealants, fire-fighting equipment, valves, cables, lighting, hygiene materials, items for environmental protection, agricultural facilities, and oceanic aquaculture cages. In 2023, LESSO's sales revenue reached over USD 4.38 billion.

COMPANY PROFILE

Lesso Quartz is a key product initiative released by Lesso Group. Established in 2011, it is managed by Lesso Technology Industrial (Chengdu) Co., Ltd. in product management.

The company is located in Dayi County of Chengdu, covering an area of nearly 150,000 square meters. The factory possesses advanced and automatic quartz stone production lines. and robust technical capabilities. It is among the largest modern production enterprises in the global artificial quartz stone industry.

Our product series includes single-color, multi-color, classic, jade, pure-color, pattern, large pattern and Calacatta, which are widely applied in such fields as star hotels, shopping malls, airports, exhibitions. With large-scale installation offering no color variation, our products are high-quality, eco-friendly stone materials that embody technology, energy efficiency, and environmental protection.

COMPANY PROFILE

PRODUCT STRENGTH

In the field of production, we boast a complete management system. We've established an information-based, modernized management system in such aspects as production, logistics, warehousing and customer service. we stringently monitor the product quality in such links as selection of raw materials, formula, control of production process, testing, warehousing and transport of finished products, with an aim to provide customers with high-quality products.

PRODUCT ADVANTAGES

Genuine Material
No Calcium Powder Added

Lesso quartz is made of quartz crystal, resin and imported colorant, resin and imported colorant, which is real stuff without any addition of calcium powder. The production is controlled strictly without any addition of calcium powder to avoid product flaws such as low resistance to acid and poor durability thereby guaranteeing benefits like long-lasting durability, high abrasion resistance, and corrosion resistance.

Non-toxic and Radiation-Free
Safe and Eco-Friendly

Selected natural quartz crystal is adopted and refined to eliminate impurities in the manufacturing process. Free from heavy metal impurities that could cause radiation, the quartz is devoid of radiation pollution risks. Lesso quartz has passed NSF certification, which can directly contact foods.

A High Content of Quartz
Abrasion and Crack Resistant

Lesso Quartz has a quartz content above 94%. Quartz crystal is a natural mineral with a hardness only second to that of diamond. Subjected to gravity pressing, its overall hardness can exceed Mohs level 5, surpassing the hardness of common kitchen utensils like knives and spatulas, ensuring it remains scratch-free.

Dense and Non-porous
Offering Lasting Stain Resistance

Adopting quality materials and advanced technology, it is formed after vibration at high temperatures in vacuum environment. This process ensures a dense, stable surface that's uniform both inside and out, providing outstanding resistance to kitchen acids and alkalis.. The liquids used in daily life will not permeate into its inside. The bacteria have nowhere to hide, ensuring cleanliness and safety.

With Over 30 Detailed Processes
Shining and Easy to Clean

Thanks to these 30+ intricate processes, the quartz surface is smoother and shinier. For daily cleaning, simply rinsing with clean water suffices. This simplicity in cleaning ensures it remains looking new for an extended period.

Heat and Flame Resistant , Unfading

Natural quartz crystal is a typical flame-resistant material, whose melting point can be higher than 1,300°C. Made of 94% natural quartz, the products are completely flame-retardant, which won't get burned at high temperatures. The products also feature a resistance to high-temperatures unrivaled by artificial stone countertops.
